Kevlar® Wire-Core™ Gloves with Latex Palms

#S13CXLX

These Emerald CX® gloves are knit with an engineered 13-gauge blend of Kevlar® and stainless steel for an ANSI cut-level A4/CE-level 5 rating. The latex topcoat works to increase grip and puncture resistance and delivers excellent wet/dry grip with improved comfort and dexterity.

Gloves withstood over 1900 grams of cut force, which is the equivalent of ten heavyweight leather gloves. This composite blend is less expensive and more effective than an aramid-only knit.
