

351 Sani-Trax® Plus

Sanitizing footbath mat holds up to 5 gallons of disinfectant solution

Sani-Trax® Plus is an entrance disinfectant foot mat that cleans and sanitizes shoes at entrances to sensitive areas such as food processing plants or laboratories. Thousands of flexible fingers provide an automatic scrubbing action that dislodges contaminants from footwear. A thick rubber border allows the mat to hold up to 5 gallons of disinfectant solution and as traffic passes, the rubber tips bend to immerse the soles of shoes in the disinfectant solution. A tough rubber compound is designed to resist most chemicals and variations in temperature, while suction cups on the underside of the mat keep it in place.

- Tough rubber compound resists most chemicals and variations in temperature
- Overall mat thickness is 2.5" and holds up to 5 gallons of sanitizing solution
- Thick containment border stands 1 7/8" higher than finger scrapers to contain disinfectant and contaminants
- Thousands of flexible rubber fingers provide scrubbing action
- Suction cups on underside help to minimize mat movement
- Helps limit the spread of contaminants on non food contact surfaces. i.e. floors
- Rubber sanitizing footbath mat

Stock Sizes	32"x39"	
Thickness	2.5"	
Colors	 Black	 Black/Yellow
Product Group	Ergonomic, Anti-fatigue & Safety Matting	
Environment	Wet/Dry Areas	
Usage Intensity	Heavy traffic	
Sales Tip	Use quaternary ammonium, iodine, chlorine, or any other sanitizer but always test it's concentration. Most sanitizers are concentrated and must be diluted before use in a footbath. Follow label directions for appropriate dilutions.	
Material	Natural rubber	
Product Weight sqft in lbs	3.8	
Process	Compression Molding	
Reach	Not REACH Compliant	
Prop 65 Warning	Prop 65 Compliant
