Goat-Grain Winter-Lined Driver Gloves

-15°C
(5°F)

#378GKTTL

Goatskin is often referred to as nature's strongest leather. It has very high tensile strength and abrasion-resistant properties, yet is lightweight with excellent softness. Because of this high strength-to-weight ratio, our Endura® Goatskin gloves are much tougher and more durable than their suppleness leads you to think. With a level 4 ANSI puncture rating, the gloves are great for handling building materials, assembly work, farming, municipal work, utilities and metal fabrication.

Our winter-lined all-leather version offers great dexterity with incredible warmth. Interior surface is brushed fleece-jersey. Glove is fully lined with 100 g/m² genuine Thinsulate™ for exceptional winter warmth.
